

EQUIPMENT SANITATION

With the current outbreak of the Covid-19 Virus, it is important to keep our loved ones safe. Being so involved in "Making Sports Happen," we are now offering a solution to get everyone back in the gymnasiums and on the playgrounds as soon and as safely as possible. The non-residual chemicals that we use have been approved by the EPA to fight against SARS-CoV-2, the Coronavirus that causes the Coronavirus Disease 2019 (Covid-19). It also meets the EPA's emerging pathogen requirements for viruses showing efficacy against envelope and non-envelope virus, both large and small.

- Indoor Bleachers
